### Good reasons to play this album:

- If you missed the celebrations for Brazil 500th birthday, this is your chance to catch up and celebrate your own afterwork birthday festa on a daily basis. It will encourage you to mix a Caipirinha and dance!
- Brazil is a "musical continent" on his own and this CD invites you to discover seven top Brazilian artists from the actual music scene, including some big at home but rarely seen abroad. If you want to book them for your own party, all contacts are included.
- All tracks were recorded live during the big Berlin summer festival "HeimatKlänge" in 2000, transmitting the fantastic party ambience during the shows and another, more raw and punky side of Brazilian music.
- It is a good proof that since the fall of the wall Berlin became one of the leading Brazilian capitals in Europe. According to statistics more than 5.000 Brazilians live in town, it seems most of them joined the big "Sons da Terra" festa together with other 65.000 people of all nations.
- Buying this CD helps street kids around the world: all royalties go to [www.strassenkinder-archiv.de](http://www.strassenkinder-archiv.de), a foundation which is engaged in research and consulting to improve the situation of children and young people who live in the streets – empowering them to stand up for their rights.
